

I do not want banks or any other companies to solícite me via phone. I think it is unfair that these companies are using a service that I pay for to harass me in my own home. If I want their services, I'll contact them. These harassing phone calls start as early as 7:00a.m. and go as late as 10:00p.m. at night. I work two jobs, I need my rest. I do not appreciate being awoken by some rude individual that is trying to force their services upon me. This should be illegal.
